1000

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million (1990–1999) and the number of people in the public sector has increased by 2.5 million (1990–1999) (Department of Health 2000).

There is a growing emphasis on the need to improve the quality of care in the public sector. The Department of Health (2000) has set out a number of targets for the public sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the public sector. The Department of Health (2000) has also set out a number of targets for the private sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the private sector.

The Department of Health (2000) has also set out a number of targets for the voluntary sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the voluntary sector. The Department of Health (2000) has also set out a number of targets for the independent sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the independent sector.

The Department of Health (2000) has also set out a number of targets for the public sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the public sector. The Department of Health (2000) has also set out a number of targets for the private sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the private sector.

The Department of Health (2000) has also set out a number of targets for the voluntary sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the voluntary sector. The Department of Health (2000) has also set out a number of targets for the independent sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the independent sector.

The Department of Health (2000) has also set out a number of targets for the public sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the public sector. The Department of Health (2000) has also set out a number of targets for the private sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the private sector.

The Department of Health (2000) has also set out a number of targets for the voluntary sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the voluntary sector. The Department of Health (2000) has also set out a number of targets for the independent sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the independent sector.

The Department of Health (2000) has also set out a number of targets for the public sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the public sector. The Department of Health (2000) has also set out a number of targets for the private sector, including the need to improve the quality of care, to reduce the waiting time for treatment, and to improve the efficiency of the private sector.
